

Colne Neighbourhood Development Plan

Examination Arrangements Update

Purpose of this Note

This Note provides an update to the note on examination arrangements sent on 21 December 2022.

The timetable for the examination

I have largely completed the background reading. This includes the submitted documents, the accompanying evidence and the representations received on the Plan. I have now started to prepare the clarification note.

I will be visiting the neighbourhood area next week. This will allow me to finalise the clarification note and incorporate any details which arise from the time that I spend in the neighbourhood area. Once the note has been sent, the examination will have reached Stage 3 (as identified in the earlier note).

Given the nature of the questions which will be raised in the clarification note it will suggest that a response is prepared by mid-February 2023 (subject to the capacity of the Town Council to do so).

Andrew Ashcroft
