The decision tree if completed for playing fields would suggest that the policy could provide additional protection for playing field land. However any additional protection would need to be applied on the basis of 102 of the NPPF and must allow for supporting facilities where these meet Sport England's Playing Field Policy and 103 of the NPPF.

Document: Pendle Local Plan 4th Edition 2021-2040 Publication Draft/Evidence base/Open Space Audit/Object

2019 and pre-dates the 2024 PPOSS in terms of playing field provision.

Introduced a 'standards based approach' to playing field provision which SE does not support.

Relates to a typology description:

"Outdoor Sports – includes sites that are used for the participation of outdoor sports, such as pitch sports, tennis, bowls, athletics, countryside and water sports."

Progressing this to a standards approach for both quantity, quality and accessibility which SE does not support: as indicated at paras 4.3 (Table 4.1); 4.4 (table 4.2 & 4.3)

The specific reference to sports provision is outlined at 5.7-5.77, is included in the standards based approach through the document as a whole, rather than the required needs based assessment in order to meet the test of para 102 of the NPPF.

The latest 2024 PPOSS supersedes this peice of evidence base and the related open space policy should not refer to it in relation to playing fields.  
Related open space policy in relation to playing fields needs to be based on the 2024 PPOSS and not the standards methodology in the Open Space Audit.

Document: Pendle Local Plan 4th Edition 2021-2040 Publication Draft/Evidence base/Pendle GI Strategy/Object

Includes playing fields within a Typology criteria of 'outdoor sports facilities' and identifies these on a Map Fig. 2.1

Refers to Open Space Audit 2018 which is out of date.

Does not include reference to NPPF 102 and understanding of playing field provision as resulting from a needs assessment.

Sport England would welcome an additional protective element to sports facilities, however this document is not needs assessed in terms of where those facilities are located and where they will be required.

The related draft local plan policies are therefore flawed where they relate to and or rely on this as evidence base.
