# OUR PENDLE, OUR FUTURE – PRIDE, PASSION, BELIEF

Our Pendle, Our Future is an exciting new plan which sets out how Pendle Partnership will improve the Borough over the next 10 years.

It explains what will be done to tackle the things residents say are important to them and highlights the challenges faced locally.

It's the most important plan for Pendle by far. It was put together by Pendle Partnership which is the Local Strategic Partnership (LSP).

The Partnership is made up of a number of local organisations which are passionate about making a real difference.

These include Pendle Council, Lancashire County Council, Health, Police, Fire and Rescue, voluntary, community and faith organisations and local businesses.

They're proud to work together, sharing the same goals and ambitions for Pendle.

## WHAT'S IN THE PLAN?

Our Pendle, Our Future reflects the views and ambitions of local residents, community organisations, businesses and local service providers.

You told us what we need to do to make Pendle a better place to live, learn, work, play and visit through consultations, surveys and workshops.

Feedback from the 'You Choose' campaign and responses to citizens' panel surveys, have been central to its development. It

also takes into account what's happening nationally.

In the plan we outline what we'll do to improve life in Pendle over the next 10 years.

On the next page you'll see what our vision for Pendle is. You'll also see our eight goals which will help us achieve this vision.

The back page shows how we wrote and agreed our 10 year plan.

It also shows some of the things you told us need to be done and what we'll do to tackle these issues.
