

COUNCIL  
23<sup>rd</sup> MARCH, 2016

**Report from Councillor David Whalley  
Member Champion for Health and Wellbeing**

Since my last report to Council in October 2015 as well as chairing the Pendle Health and Wellbeing Group and attending the East Lancashire Health and Wellbeing Partnership the main recent events have been:

Following on to the making of the 'Falls' video with the Pendle Seniors Group, the launch took place at Nelson and Colne College with the students who had done the filming and the interviewing.

The video is now being distributed free of charge to all interested organisations. A donation from our Member of Parliament helped with the cost.

I attended the meeting of the Pendle Dementia Action Alliance. Following this I arranged a meeting with the Alliance and LCC Health and Wellbeing Executive member, County Councillor Azhar Ali, to source funding for leaflets about dementia.

A presentation at St Joseph's school in Barnoldswick is to take place with myself and LCC councillors marking the work done by the school with dementia sufferers in Barnoldswick.
