CAPITAL PROGRAMME 2015/16 AND 2016/17

PURPOSE OF REPORT

To update members on the Committee's 2015/16 and 2016/17 capital budgets.

RECOMMENDATIONS

- (1) That members note that only the schemes listed in Appendix 1 have agreed funding.
- (2) That members consider the new bid in paragraph 10.
- (3) That any late bids be considered by the Committee.

REASON FOR RECOMMENDATIONS

To enable the capital programme to be allocated efficiently and effectively.

ISSUE

Uncommitted Balance from 2014/15

1. This is £9,692.

Allocation for 2015/16

2. This is £45,440 capital plus £21,210 revenue contribution to capital – totalling £66,650. However, £12,120 of the revenue contribution is being held back as cover in the event that savings do not materialise from the transfer of some assets to the town and parish councils. At this stage, this gives an effective total allocation for 2015/16 of £54,530.

Effective Total Allocation for 2015/16

3. This is £64,222.

Commitments for 2015/16

4. These total £63,516 (see Appendix 1 for a detailed breakdown).

Balance for 2015/16

5. This is £706.

New Allocation for 2016/17

6. This is £30,290 capital plus £21,210 revenue contribution to capital – totalling £51,500.

Additional Sources of Capital Funding

7. Appendix 2 to this report is a list (for information) of current Section 106 (Planning) Agreements where finance has been received provided by Planning and Legal Services relating to the Nelson Committee area.
8. The Pendle Three-Tier Forum stressed at its meeting on 1 April 2014 the need to seek match funding for highway schemes and improvements. It was agreed that the Borough Council via its area committees should approach the County Council for match funding wherever possible.

Financial Advice

9. Please refer to the Financial Implications section of this report. Bids for new funding should be submitted on the usual forms (Form A for Internal, Form B for External and Form C for Nelson Ward Initiatives) in order that members can evaluate them on a consistent basis.

New/Deferred Bids

10. **Nelson Town Centre Premises Improvement Grants:** submitted by Paul Collins, Regeneration Officer, Housing, Health and Economic Development – £15,000 (see bid form at Appendix 3).

Existing Bids

Overspend – Additional Funding Required

11. None.

Underspend – De-allocate Funding

12. None.

Late Bids

39. Any late bids will be reported preferably just prior to or at the meeting.

IMPLICATIONS

Policy: The capital programme is required to be allocated and managed in accordance with the Council's Corporate Capital Strategy 2015/18.

Financial: Expenditure for capital purposes is primarily expenditure on the acquisition, reclamation or enhancement of assets (eg buildings, land, plant and machinery). "Enhancement" means substantially lengthening the useful life of the asset, substantially increasing its open market value or substantially increasing the use of the asset. Other expenditure for capital purposes can include computer costs (for use over a period exceeding one year) and incidental costs involved in a capital project (eg officers' salaries and professional fees). Anything not covered by "proper practices" must be treated as revenue expenditure.

As in previous years, and in accordance with proper accounting practice, the revenue allocations can be used to fund capital expenditure but under no circumstances can the capital allocation be used to fund revenue expenditure.

A list of good practice in the allocation of funding has been proposed by the Council's Chief Finance Officer in order to assist members when considering the allocation of the capital and revenue budgets. The list is as follows:

1. The funding should assist a scheme which contributes to meeting the Council's corporate priorities.
2. Allocate reasonable amounts to projects early to allow for effective planning and implementation.
3. Look for opportunities to maximise the effectiveness of the allocation through match funding.
4. Consider allowing some contingency for projects that may be presented during the year.
5. Try to avoid allocation of funds at the end of the financial year.
6. Consider the revenue consequences of capital schemes in terms of ongoing cost.

Legal: There are legal implications for a number of the proposals listed above in terms of necessary permissions, agreements and possible long-term liabilities and responsibilities.

Risk Management: The capital programme is required to be allocated and managed in accordance with the Council's policies and procedures. The proper management of the programme is intended to minimise any exposure to unnecessary risk associated with the programme and the individual schemes within it.

Health and Safety: The implementation of the programme has associated risks in terms of health and safety. The Council is required to meet all relevant legal requirements for the effective management of health and safety risk and has policies and procedures in place to ensure health and safety standards are maintained.

Climate Change: Some of the schemes identified will encourage the reduction of carbon emissions, such as traffic calming schemes and cycle facility provision.

Community Safety: A number of the schemes listed above have implications in terms of community safety. Wherever possible, the projects are managed in a way that enhances community safety.

Equality and Diversity: The capital programme is required to be allocated and managed in accordance with the Council's policies and procedures, including those relating to equality and diversity.

Short Project Title: Nelson Town Centre Premises Improvement Grants

Bid submitted by: Housing, Health and Economic Development

On behalf of (please include contact details): Housing, Health and Economic Development, Elliott House, 9 Market Square, Nelson

Amount requested: £15,000

Brief details of Project: Premises improvement grants are promoted, targeted and administered by Economic Development staff. The Regeneration Officer supports the applicants throughout the application process. All retail premises within the defined town centre boundary are eligible for a 50 per cent grant (at a maximum of £3,000) for improvements to their premises. The main aim of the premises improvement grants scheme is to improve the overall look of the town

The 2014/16 budget of £32,000 (Section 106 funding) has been fully allocated, supporting 17 businesses (a full report outlining the outcomes will be submitted in May)

Main Outcomes to be Achieved: To improve the appearance of the town centre by assisting the private sector to improve premises and encourage the use of vacant properties. The grants scheme is a tool used to encourage private investment in town centre buildings; the outcome of this investment is an aesthetic improvement to the town centre which in turn increases retail and public confidence in the area. The grants can encourage the use of vacant buildings as they can reduce the overall cost of changing the exterior and interior of the building to suit the needs of the incoming business

When will Project be implemented? From budget approval to 31 March 2017

Who will undertake the Project works? Private contractors appointed by individual applicants, which can be either the owner or tenant of the premises. Applicants must provide three quotations to demonstrate value for money before the grant is approved

Is the bid for capital or revenue funding? Capital

Is there match funding for the Project from elsewhere? Yes

If so, please give details: The grants scheme is based on 50 per cent (maximum of £3,000) funding from PBC and 50 per cent from the private sector (grant applicant)

Are there long-term revenue consequences and how will these be funded?
