I have shown the crime figures, broken down into category, for the areas as we classify them. Hopefully this will cover all the councillors ward areas.

The criminal damage figures show 3 offences, in Barrowford, on the same night, possibly done by someone with a catapult or similar. CCTV enquiries are on-going at town centre premises.

The two offences at Higham are linked to an on-going neighbour dispute and, one offence is subject to an on-going criminal investigation.

Of the 8 stealing from vehicles, in Barrowford, 6 are likely to have been committed on the same night, in the same area. CCTV footage of the offender, at one of the offences, has been obtained and a possible suspect has been potentially identified recently. This is **not** a local male and enquiries are on-going.
