## **AUDIT PLAN 2016/17**

- 4. The Internal Audit Plan for 2016/17 was drawn up using risk based analysis of the Council's systems and services and an estimate of staff leave and training requirements. The Plan currently comprises a total of 602 days audit time and is estimated to provide coverage of 60% of all auditable systems.
- 5. In order to ensure Members are kept informed of progress made against the Plan, regular monitoring reports are submitted to this Committee for consideration.
- 6. Attached at **Appendix A** are details of the work completed on system audits by the Internal Audit Unit for the period ending 31st December 2016. This provides a summary of the work performed and particulars of any significant issues that have arisen during this period. It can be reported that no "Limited Assurance" audit opinions have been issued.

- 7. To the 31st December 2016 Internal Audit has used 431 days of staff resources. Bank Holidays and normal staff leave have accounted for 82 days. Professional CPD training and seminars have accounted for a further 7.2 days.
- 8. The percentage of days used for audits compared to the total days available to the end of December is 65.03%, the target is 70%. This is due to annual leave being taken over the summer months and it is envisaged that the audit plan will be completed on target.

## **Priority of Recommendations**

Audit recommendations are categorized by three priority levels: -

- **Priority 1** Major issues that we consider need to be brought to the attention of senior management.
- **Priority 2** Important issues which should be addressed by Management in their area of responsibility.
- **Priority 3** Minor issues, which provide scope for operational improvement.
