INTERNAL AUDIT: RECOMMENDATION DATABASE

1. In accordance with the Public Sector Internal Audit Standards (PSIAS) a follow up process to monitor and ensure that management actions have been effectively implemented must be established. This report provides Members with a summary of progress on the implementation of internal audit recommendations as at 30th June 2017.

RECOMMENDATIONS

2. That the Accounts and Audit Committee note the progress made on the implementation of Internal Audit recommendations up to the 30th June 2017.

REASONS FOR RECOMMENDATION

3. To demonstrate that the Accounts and Audit Committee is monitoring the implementation of recommendations.

ISSUE

4. A key role of the Accounts and Audit Committee, as set out in the Terms of Reference of the Committee, is to:-

“To act as a forum to ensure the rapid delivery and implementation of audit recommendations once agreed, ensuring that auditors and officers collaborate effectively”.

5. It was agreed that the Committee’s role in this respect should be discharged by considering a report on the status of implementation of recommendations at each of its meetings. This summary report has been produced to satisfy this requirement.
6. The status on implementation in respect of Priority 1 & 2 recommendations issued in each final report (in some cases superseded) since 1st April 2016 is shown below in **Appendix A**. Of 88 recommendations made by Internal Audit, 36 have been implemented and 52 are currently in the process of being implemented by Management. The higher than usual number of audit recommendations in progress is due to several recent audit reviews that have been completed and Management are currently implementing the recommendations, the due dates for implementation in these cases have not yet passed.
