# **CAPITAL PROGRAMME 2019/20**

#### **PURPOSE OF REPORT**

To advise members on the Committee's capital budget.

#### RECOMMENDATIONS

- (1) That members note £21,062 is uncommitted.
- That members note only schemes listed in Appendix 1 have agreed funding. (2)

#### **REASON FOR RECOMMENDATIONS**

To enable the capital programme to be allocated efficiently and effectively.

#### ISSUE

Uncommitted balance carried forward from 2018/19

1. £4,602.

#### Allocation for 2019/20

2. £19,960.

#### Effective Total Allocation for 2019/20

3. £24,562 (i.e. £4,602 + £19,960).

### **Commitments**

4. £22,636.

### Uncommitted balance

5. £21,062.

# Financial Advice (as reported to all area committees in May 2018)

6. Please refer to the Financial Implications section of this report. Bids for funding should be submitted on the May 2018 revised forms (Form A for internal bids and Form B for external bids) in order that the Chief Financial Officer can confirm that they qualify as capital spending and that members can evaluate them on a consistent basis.

### New/Deferred Bids

- 7. None.
- 8. No late bids or funding allocations can be made unless, with the consent of the Chairman, the bid is considered to be an urgent item. If a late/urgent bid is approved and is in the opinion of the Chief Finance Officer a revenue item then the decision will be reported to the Policy and Resources Committee for determination. No payment can be made in respect of the bid pending a resolution by the Policy and Resources Committee.

## **Existing Bids**

Overspend – Additional Funding Requested

9. None.

Underspend – Deallocate Funding

10. None.

### IMPLICATIONS

**Policy:** The capital programme is required to be allocated and managed in accordance with the Council's Corporate Capital Strategy 2018/21.

**Financial:** Expenditure for capital purposes is primarily expenditure on the acquisition, reclamation or enhancement of assets (e.g. buildings, land, plant and machinery). "Enhancement" means substantially lengthening the useful life of the asset, substantially increasing its open market value or substantially increasing the use of the asset. Other expenditure for capital purposes can include computer costs (for use over a period exceeding one year) and incidental costs involved in a capital project (e.g. officers' salaries and professional fees). Anything not covered by "proper practices" (Section 21(2) of the Local Government Act 2003) must be treated as revenue expenditure. Under no circumstances can the capital allocation be used to fund revenue expenditure.

A list of good practice in the allocation of funding has been proposed by the Council's Financial Manager to assist members when considering the allocation of capital budgets. The list is as follows:

- 1. The funding should assist a scheme which contributes to meeting the Council's corporate priorities.
- 2 Allocate reasonable amounts to projects early to allow for effective planning and implementation.

- 3. Look for opportunities to maximise the effectiveness of the allocation through match funding.
- 4. Consider allowing some contingency for projects that may be presented during the year.
- 5. Try to avoid allocation of funds at the end of the financial year.
- 6. Consider the revenue consequences of capital schemes in terms of ongoing cost.

**Legal:** There are legal implications for a number of the proposals listed above in terms of necessary permissions, agreements and possible long-term liabilities and responsibilities.

**Risk Management:** The capital programme is required to be allocated and managed in accordance with the Council's policies and procedures. The proper management of the programme is intended to minimise any exposure to unnecessary risk associated with the programme and the individual schemes within it.

**Health and Safety:** The implementation of the programme has associated risks in terms of health and safety. The Council is required to meet all relevant legal requirements for the effective management of health and safety risks and has policies and procedures in place to ensure health and safety standards are maintained.

**Climate Change:** Some of the schemes identified will encourage the reduction of carbon emissions, such as traffic calming schemes and cycle facility provision.

**Community Safety:** A number of the schemes listed above have implications in terms of community safety. Wherever possible, the projects are managed in a way that enhances community safety.

**Equality and Diversity:** The capital programme is required to be allocated and managed in accordance with the Council's policies and procedures, including those relating to equality and diversity.

### APPENDICES

Appendix 1: Capital Programme Commitments

### LIST OF BACKGROUND PAPERS

None.
