

Licensing Act 2003

Address of Premises:

Colne Cricket Club, The Horsfield, Byron Road, Colne, Lancashire BB8 0RF

Prevention of Crime & Disorder

Public Safety

For each of the 6 outdoor events, an event safety management plan must be submitted and approved by the licensing authority 1 month prior to the event taking place.

The Prevention of Public Nuisance

A sign shall be displayed in a prominent position where it can easily be seen by people leaving the premises and with lettering of such size that it can be easily read saying the following or something of a similar event;

'Please leave quietly without causing any noise or disturbance'.

Bottles will not be placed in any external receptacle between the hours of 23.00 and 07.00 to minimise noise and disturbance to neighbouring properties.

Noise from plant and machinery will be inaudible at the nearest noise sensitive premises during the operation of the plant or machinery? Plant and machinery will be regularly serviced and maintained.

The PLH/DPS will ensure that patrons use the outdoor areas in a manner which does not cause disturbance to nearby residents and business in the vicinity.

In all circumstances noise from Regulated entertainment at the Licensed premises must be inaudible in nearby noise sensitive premises between the hours of 2300 and 0900.

Outdoor Licensable activities are only permitted on the 6 notified days, or until 9pm on the days where there is a Cricket match.

There will be a maximum of 6 days in one calendar year, where licensable activities will be conducted outdoors until 23.00 and the following additional conditions apply:-

1. The Club must contact Environmental Health and make them aware of the event taking place at least 2 months in advance. Depending on the nature of the event EH will decide if it is necessary for the club to produce a noise management plan. If deemed necessary, this must be submitted and approved at least 1 month in advance of the event taking place. The noise management plan will include but is not limited to:

- Details of an appointed competent person who will deal with all matters related to noise during the event. The competent person shall liaise between all parties including the Premises Licence Holder, Sound Engineer, Local Residents and the Licensing Authority on all matters relating to noise control prior to and during the event.
- The competent person shall liaise with Environmental Health to agree appropriate noise monitoring locations no less than 3 days prior to any event.
- In advance of any event, if not already carried out, the competent person shall carry out a noise survey to determine background noise levels (as defined by the code of practice on Environmental Noise at Concerts) at locations around the venue representative of the noise sensitive premises likely to experience the highest noise level as a result of the event. The information should form part of the noise management plan.
- Details of a sound check which shall be carried out prior to any event to set appropriate noise levels. This should be used to determine the maximum sound level measured at the mixer which is required to meet the maximum music noise level at the boundary of the noise sensitive premises.
- Details of a hotline number for residents to ring during the 6 outdoor events. This should be manned during the event by operatives who have direct contact with the 'competent person'.

2. Between 0900 and 2300 the Music Noise Level as measured 1m from the façade of noise sensitive premises shall not exceed the background noise level (LA90, 1 hour) by more than 15dB(A) when measured over any 15 minute period during both the sound checks and the event.
