Re Colne Cricket Club Premises Licence

Dear Sir or Madam

It has come to our notice that the Colne Cricket Club are proposing changes to the club licencing along with increasing the number of events held.

Although we are supportive for a successful viable club our concerns are the level of noise and possible anti social behaviour in a residential area. We have always supported the Bon fire and other events held but feel a music festival with possibly 5000 people is a step too far. It will affect (disturb) residents with young families, elderly residents & people with pets. Such events are usually held in equipped arenas & festivals away from residential areas!

We would be grateful if you can consider our concerns re unacceptable levels of noise

continued / ...

and a possible rise in anti-social behaviour.

We believe the current licensing is adequate and events should be applied for and licensed individually

Yours Sincerely
Mark & Siney Proctor
