

Update to West Craven Area Committee 30th March 2021

20/0685/FUL

The applicant has sent an email to Members addressing some of the points raised in the officer report. To be clear, the four main points of the case relating to this application are as follows:

- 1 There is no agricultural need based on the stock
- 2 This is not an agricultural process
- 3 The need is for less than 6 months a year
- 4 They are not there to deal with emergencies. The process requires constant supervision so that requires someone to be up and working.

This does not change the recommendation set out in the original report, to refuse the application.
