COLNE TOWN CENTRE LITTER BINS

PURPOSE OF REPORT

To provide a list of the litter bins within Colne Town Centre, a note on their current condition and details on costings to refresh/repair/replace the bins as required.

RECOMMENDATION

That the Committee agree to allocate funding from the area committee budget to carry out the works required.

REASON FOR RECOMMENDATION

To improve the litter bin provision in Colne Town Centre.

ISSUE

In November in response to a request of the Committee, the Environmental Services Manager submitted a list of litter bins within Colne Town Centre in order for an audit to be undertaken.

During the November meeting Councillor K. McGladdery advised that he would be willing to carry out an audit to understand the status, quality and design of the bins in order to rank them to be considered for replacement.

At the Committee's December meeting it was recorded that a member of the Committee had carried out an audit of the litter bins within Colne Town Centre, working from a list that had been provided by the Environmental Services Manager.

As part of the audit process, the bins had been rated from one to three as follows

- 1. Relatively ok, but in need of a clean.
- 2. Open cast iron bins with paint peeling off and in need of a refresh
- 3. Broken

It was noted that not all the bin identification/sticker numbers matched; some of the bins on the list were no longer in position; and additional bins had been found which were not on the list.

It was RESOLVED That the Environmental Services Manager be asked to –

- (1) Produce an up to date list of litter bins within Colne Town Centre using what3words to identify the location of each bin;
- (2) provide costings to clean and paint all the bins rated 2 on the list;
- (3) Carry out an assessment of those bins rated 3 on the list to establish if they could be repaired and, should replacements be necessary, an estimate be sought on a bulk purchase to potentially benefit from economies of scale.

REASON to improve the litter bin provision within Colne Town Centre.

In response to the Committee's resolutions Officers have undertaken a full audit of the waste bins within the Colne Town Centre area and have created an up to date list of locations linked to numbers and what3words location descriptions.

Members are advised that what3words' is accurate to 3 metres and therefore the bin may not be in the exact location if searched for upon what3words.

The table below provides details of the location, type, number and condition of the bins at the time of the audit.

Sticker	Road	Location	Type	What3Words	Rate	Comment	Make
0497	ALBERT ROAD	O/S NO. 82 (TUBBS OF COLNE)	Litter	///clips Depending.squeezed	2	REPAINT	CAST IRON ROUND

Environmental Services would replace damaged and worn waste bins with either the Broxap freestanding litterbins or Glasdon post mounted bins as they remain in keeping with waste bins throughout the area.

Examples of waste bins provided below.

Cost of replacing 7 freestanding bins £2303.00 + VAT

Cost of replacing 2 post mounted bins £276.00

Cost of replacing 9 waste bins including reinstatement of paving as required £810.00

Cast Iron freestanding litterbins

The audit found that there are currently 21 freestanding cast iron litterbins located with the Colne Town centre area.

Example of cast iron bin below.

To clean, prime and re-paint the litterbins Environmental Services have been quoted £235.00 + VAT per bin. Total cost of renovating the bins would be £4935.00 + VAT.
