- F. Brief details of project:** There used to be a gate on Greenfield Road which had been requested by residents to stop people using the route as a cut through for vehicles, especially at rush hour.
- The gate was installed as part of a PSPO but has been missing since the new development at the end of the M65 started. Residents have complained that the situation is worse at rush hour when at least 15 or 20 cars pass through causing congestion on this narrow single-track lane.
