The garden has 43 raised beds and a huge poly tunnel for residents of Salterforth. The West Craven Area Committee very kindly supported our application to create a community garden with raised beds for residents to grow produce and provide a open and tranquil place to aid wellbeing. There is no source of water on site (albeit the canal, but thats a no-no from the canal and river trust) we have allowed for water collection from the poly tunnel but this may not adequate for the whole site if the weather improves.
10. **Main outcomes to be achieved:**

A water trolley will be a huge benefit to the Parish Council and reduce the bill for watering the troughs and hanging baskets in the village (this was over £1000 in 2023) and may be required in the new community garden to ensure there is an adequate supply of water to sustain the raised beds and subsequent fruit and vegetables.
