40. TOWN DEAL: PROGRAMME CAPITAL WORKS TO PENDLE WAVELENGTHS

The Director of Place submitted a report which provided an update on various works being carried out at Pendle Wavelengths. The report also requested authorisation for an extension to the

building and other improvements funded by the Town Deal. The full analysis of investment in Wavelengths over the last 12 months and the updated position on the original Town Deal proposals was contained in Appendix 1 of the report. What was proposed now was a more modest extension to Wavelengths that would still deliver the Town Deal outputs and be affordable within the available £1.7m funding. This was set out in Appendices 2 to 4.

RESOLVED

- (1) That the update on various works being carried out at Pendle Wavelengths be noted.
- (2) That the construction of an extension to Wavelengths and other improvements to be funded by the Town Deal as set out in the report be agreed.

REASONS

- (1) ***For information and to provide context for the proposed additional investment of the Town Deal funding.***
- (2) ***To allow for the Town Deal funded project to be initiated and a professional team and building contractor to be appointed in line with the Council's procurement rules, so as to ensure Town Deal funding rules could be met in terms of commitment of funds by March 2026.***

40. COLNE, EARBY AND BARNOLDSWICK MASTERPLANS

The Head of Economic Growth submitted a report on the completed Masterplans for Colne, Earby and Barnoldswick.

Members were keen to see the Masterplans used as working documents and for a process on adding to them. Funding for public realm work was considered a priority as was tackling grot spots. There was agreement that the Masterplans, once adopted, needed to be used to progress and coordinate works in association with partners, which could include LCC or Parish and Town Councils, the private sector or community organisations.

RECOMMENDATION

That Council be recommended to –

- (1) Adopt the Colne, Earby and Barnoldswick Masterplans.
- (2) Request LCC to fund elements of the public realm works in the Masterplans.

41. UPDATE ON CEMETERY SITES EXTENSIONS

The Assistant Director Operational Services submitted a report which provided an update on the outcome of the investigative work completed at the existing cemetery sites in Earby, Salterforth, Ghyll, Barrowford and Colne to ensure sufficient burial spaces remained available at these sites.

Colne cemetery currently had 120 plots available providing 5 years of use. Barrowford had 62 plots available providing space for 5 years use. Ghyll cemetery had 50 plots available providing 8 years of space. Earby had 112 plots providing 17 years of space and Salterforth cemetery had in excess of 40 years of space left at the current recorded burial rates.

There was potential to create more burial plots at Ghyll cemetery but further investigation was required beyond the initial tests carried out costing in the region of £30,000. Potential income of over £544,860 could be achieved over the life of the cemetery based on 304 burial plots being created.

RESOLVED

- (1) That progress on all sites be noted.
- (2) That an additional funding of £30,000 be agreed in order to complete required investigations at the Ghyll cemetery site in order to confirm suitability for development as a burial site.

REASONS

- (1) ***To ensure sufficient burial space was available for future needs.***
- (2) ***To ensure Members were aware of the additional work and costs required at Ghyll cemetery before further investigations were made.***
