4. DECLARATION OF INTERESTS

5. PUBLIC QUESTION TIME

A resident of Higham, who had attended the previous five meetings to speak about the same matter, was in attendance again as the fence on some land in Higham still continued to cause a serious hazard for vehicles entering the A6068 owing to visibility splay obstruction. The resident enquired as to whether there had been a positive response from owner of the land to the Assistant Director Planning, Building Control and Regulatory Services' request for the offending section of side fencing on their land to be removed. The Planning Officer confirmed there had not been.

The Chair apologised to the resident for having to attend five meetings to speak on the same matter and said the next steps would now be determined. The Chair felt the most appropriate course of action was to request that the Assistant Director Planning, Building Control and Regulatory Services submitted a full report to the next meeting of this Committee to set out the current legal position and the enforcement actions that could be taken in this particular case.

Another resident of Higham raised further issues associated with the same piece of land which they felt should be considered alongside the fencing issue and not in isolation as they had been.

The Chair said the Assistant Director Planning, Building Control and Regulatory Services would be asked to also address the further issues in the report they would be submitting to the next meeting.

A resident of Parrock Road, Barrowford raised health and safety concerns over the height of a wall on the road. The wall was currently 1.6m with a topping stone still to be added and the conditions attached to the original approved planning permission (21/0758/FUL) stated a height of 0.9m. There had already been numerous near misses due to the blind spots and visibility

issues caused by the height of the wall. This issue had already been raised with the Planning Enforcement Officer and further updates were awaited.

The resident also reported that WiFi and telephone connection issues were being caused for the fourth time by the approved development on the road.

Members said they would discuss the issues with the Assistant Director Planning, Building Control and Regulatory Services and asked the resident to provide further details following this meeting to inform that discussion.

RESOLVED

- (1) That the Assistant Director Planning, Building Control and Regulatory Services be requested to submit a full report to the next meeting of this Committee to set out the current legal position and the enforcement actions that could be taken against the owner of the land in question in Higham.
- (2) That the further issues raised by the second resident of Higham also be addressed in the report referred to in (1).
- (3) That discussions, informed by the details to be provided by the resident of Parrock Road, Barrowford following this meeting, be held between Members of this Committee and the Assistant Director Planning, Building Control and Regulatory Services.

REASON

In the interests of highway and public safety.
