

17th March 2026 Development Management Committee

Update Report, Agenda Item: 26/0019/HHO

An updated plan has been received (plan reference 25053-01-A) revising the pre-development ground level to what is stated to be more accurate.

The applicant claims that measurements taken on site have shown the retaining wall and platform to be 250mm lower than shown by submitted plans.

These revisions do not alter the recommendations of the report.
